Office: (951) 741-4822 • Fax: (951) 922-1494

## Equipment Specifications:

Model BV-E-Class 53X33 Manual Sheet Fed

Belovac Industries offers a wide variety of Vacuum Forming Machine Options.

This BV-E-Class 53x33 production vacuum forming equipment has all the same

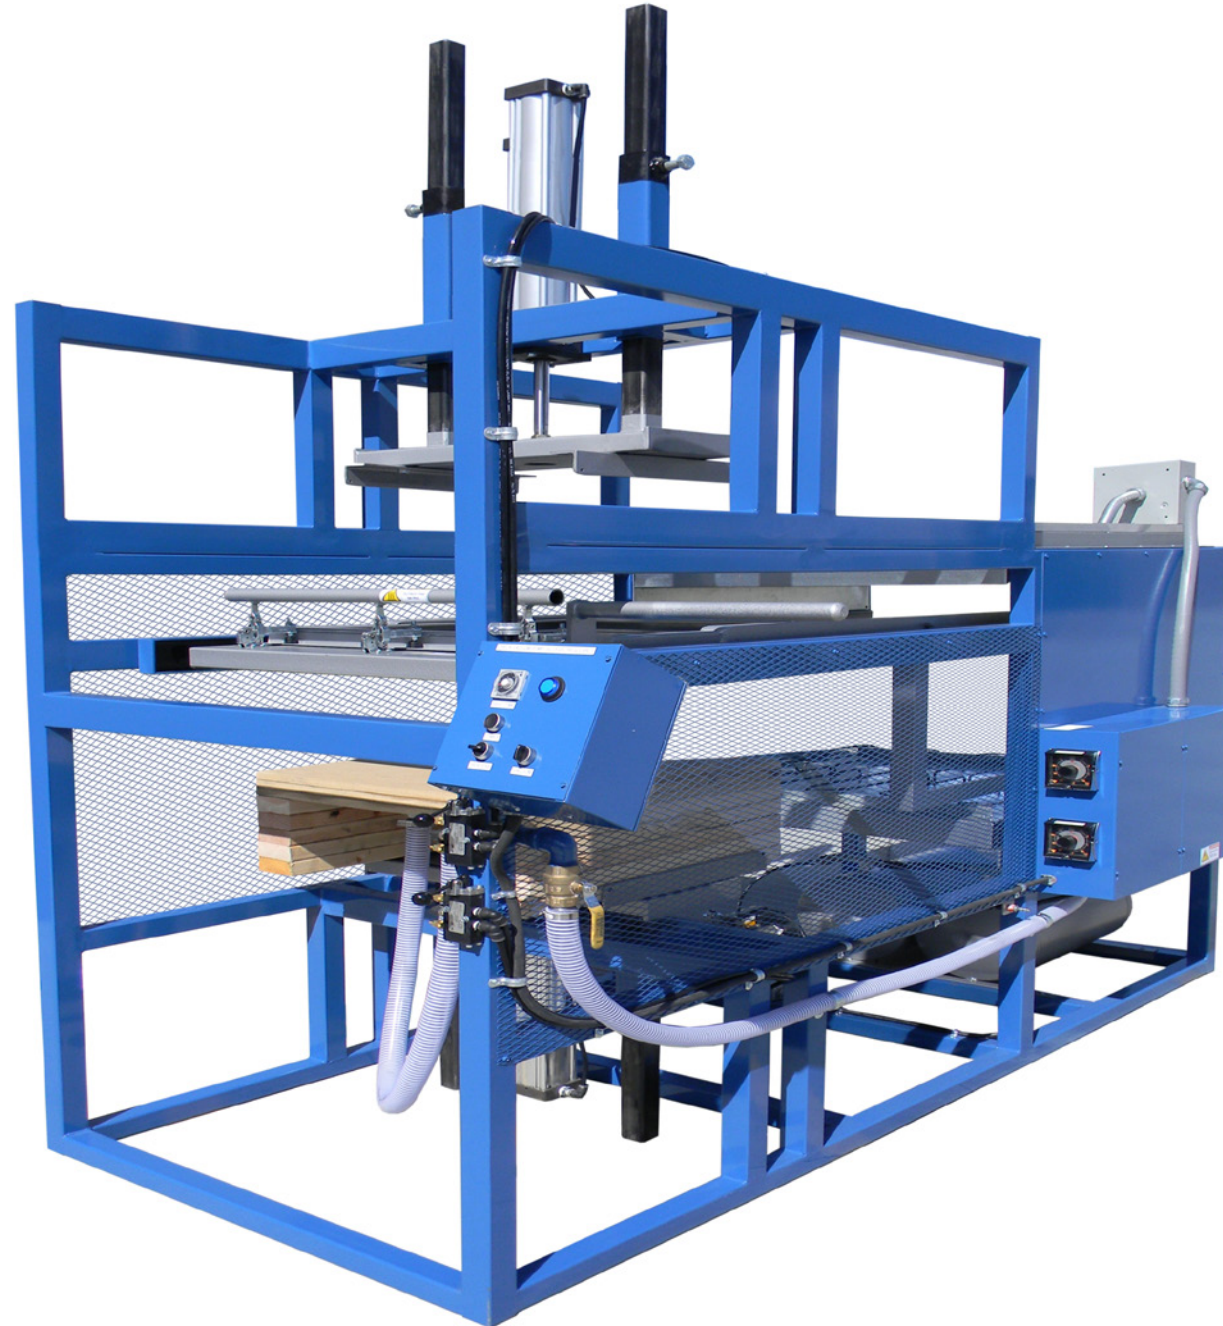

features of our high end full auto thermo formers with the exception of auto cycling. All E-class models are engineered simplistically, for easy of

operation and low maintenance. This economical alternative to full auto systems offers the same vacuum forming capabilities without the down time

issues related to automated competitive systems. A wide variety production oriented products can be produced on this Vacuum Forming machine, From heavy

gauge deep drawn products to light gauge packaging components this system offers 21 years of, time proven engineering.

All E-class plastic molding equipment models are engineered with the highest quality components and workmanship, for easy of operation and low maintenance.

Option: PLC Heat Multi-zone Control

Option: Pneumatic Plastic Clamping System

Option: Ceramic Radiant Heaters
